Description

Similar in texture to a worn stone found at the bottom of a river, Blue Stone carries a softness that is visible in its smooth blue-green matte color. The different shades of green feather into dark blues when applied over texture wares.

The Potter's Choice glaze series was designed with the potter in mind! These stunning glazes add fluid colors and effects to smooth or textured ware, with optimal results at Cone 5/6. To use these glazes is to step into different ceramic glaze traditions of many cultures throughout history.
