Description

Seaweed is a fluid, deep green glaze that layers beautifully with a variety of Potter's Choice glazes. This glaze breaks brownish over texture and becomes more fluid with thickness. Pay attention to application thickness so the glaze does not flow onto kiln shelves during firing.

The Potter's Choice glaze series was designed with the potter in mind! These stunning glazes add fluid colors and effects to smooth or textured ware, with optimal results at Cone 5/6. To use these glazes is to step into different ceramic glaze traditions of many cultures throughout history.

- Reduction Effects in Oxidation
- Variety of Colors and Surfaces
- Cone 5 / 6
- Limitless Layering Combinations!
