Description

Create beautiful fine line decorations with a handcrafted wooden Kushi comb

The Kushi comb is named after the traditional Japanese fine line surface decoration known as Kushi-me.

Understated elegance

Scrape your Kushi comb over your clay surface to create parallel-lines in a style of surface decoration known as Kushi-me. A style that is simple, understated and elegant.

Fine polished wood comb

Our Kushi comb is handmade from hardwood and polished for a smooth finish. The comb is about 55mm wide and fits comfortably in your palm, ensuring a secure grip.

A multitude of uses

The Kushi comb is versatile and can also be used to score large areas of clay surface, or create

your own interesting texture.

Dimensions: 800mm x 55mm
